

Στο μάθημα των Αγγλικών με τους μαθητές της Β' Τάξης πραγματοποιήσαμε ένα πρότζεκτ καθ' όλη τη διάρκεια της σχολικής χρονιάς με θέμα: << **UNITY IN DIVERSITY**>> (**Ενότητα στη Διαφορετικότητα**). Οι μαθητές μέσα από διάφορες δραστηριότητες μπήκαν στη διαδικασία να αναλογιστούν και να εντοπίσουν τις **διαφορές και τις ομοιότητες** μεταξύ τους, αλλά και να αντιληφθούν ότι είναι **ίσοι** παρά τα διαφορετικά τους στοιχεία.

Ταυτόχρονα και σε συνεργασία με τον καθηγητή των καλλιτεχνικών προχώρησαν στη δημιουργία **αφισών** για το θέμα μας. Επίσης με τη χρήση ηλεκτρονικών εργαλείων δημιουργήσαμε **σελιδοδείκτες** τους οποίους μοιράσαμε σε μαθητές και καθηγητές για τη διάδοση του μηνύματος. Επιπλέον οι μαθητές αποτύπωσαν τις ιδέες τους για το θέμα αυτό στα Αγγλικά με έμφαση στην **αποδοχή της διαφορετικότητας** των συνανθρώπων μας και το **σεβασμό στη μοναδικότητα** του καθενός από εμάς με στόχο πάντα την **ευημερία, την ειρήνη και την ευτυχία των λαών!**

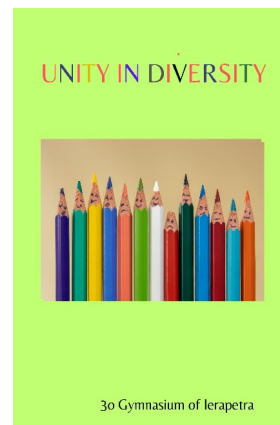

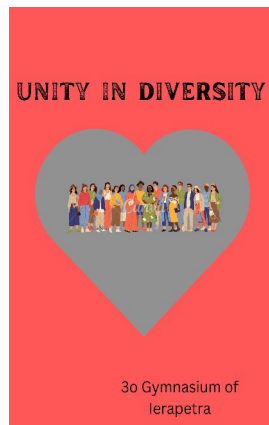

Τέλος με το υλικό από το παραπάνω πρότζεκτ λάβαμε μέρος μέρος στον Πανελλήνιο Σχολικό Διαγωνισμό για τους 17 Παγκόσμιους Στόχους "**Bravo Schools**".

Ορισμένες από τις δημιουργίες των μαθητών βλέπουμε **εδώ:**

Οι σελιδοδείκτες:

## POEMS

### 1. CHARA CH. - KATERINA CH.

Wouldn't it be awesome,  
Wouldn't it be awesome,  
If I could only see one colour?  
If everything was purple, yellow or blue?  
If everything was pink?  
Wouldn't it be awesome?  
Or wouldn't it be?  
Can you imagine a monochromatic world?  
How boring it would be?  
Your colour doesn't matter to me,  
We can be friends, we can be friends,  
It's all the same to me.  
Tall or short, fair or dark,  
With hair or not,  
I do not care,  
It's all the same to me.  
We can be friends,  
We can be friends!

### 2. KYRIAKI N. , CHRISTOS B., GEORGE M.

**It doesn't matter if you are black, white, pale or short**  
We are here to back you up until the end of the world.  
And for the sake of God you must be bold,  
let the others know that you are right and they  
are wrong!  
Wake up, see reality.  
What is that? **Equality!**  
It's not your body's equality,  
it is your soul that brings you immortality.  
Equality is not a privilege, but a **human right,**

let us allow all people to shine bright!  
You have the right to express your emotions  
And be as you please,  
Join the journey,  
the opportunity to seize!

Άλλες εκθέσεις των παιδιών:

### 3. UNITY IN DIVERSITY

**Diversity** refers to some of the **differences** that people may have with each other. It is the **uniqueness** of each person and their personal characteristics.

People differ in many things. For instance in culture, language, ideology, gender, age, color, abilities, religion. People also differ in character. Everyone has a different reaction to happy moments or moments of sadness. Finally people differ in outward appearance, interests and education. Despite all the differences people also have some **similarities**. For example, our needs. Such as the need for food, water, sleep, socializing with other people. The need to have a home. We also have the same rights and feelings. Perhaps how much we differ from each other is, after all, a similarity, too.

**Unity in diversity** means **acceptance**, I accept the other for who he is. Unity in diversity means respect. We must respect the diversity of people because no one is the same, we are all different. Through diversity we see things from a different perspective. Therefore we should not judge it.

When we **respect diversity**, we also respect ourselves, because we are all different. We should not allow ourselves to be influenced by stereotypes. This way there will be **no more racism**. Everyone will be able to be their true self and express what they want to say without fear of what people will think of them.

**Diversity is a good thing** because if all people were the same, the world would have no interest. If we respect diversity our **society will go one step further!**

## UNITY IN DIVERSITY

All around the globe, people have different physical characteristics. People have different skin color, different body types or different facial characteristics. People should not be judged for their appearance. It is not right. We should all be equal. If all of us love our fellow human beings and work together, we can accomplish great things. That's why **unity in diversity** is essential. It's a way to secure peace in the world.

As I mentioned before, people differ in many ways, their color, their body types and their facial characteristics. Some are short, some are tall, some are pale and others are white. These characteristics help people adapt to their environment, so they change from place to place. But all these have nothing to do with a person's character. We may seem different from each other, but technically we are all the same. We think the same way. We are alike in our basic needs. All we want to accomplish is peace and a happy life. We all want the same things. And we can make it happen. Our souls are alike. If we understand that we can **stop racial discrimination** we can make the world a better place.

The key-words to stop discrimination is **respect and inclusivity**. Everyone has different abilities or skills and everyone can help build our future. We should respect each other, because we are all a part of this world. Anyone, with their abilities can help. If we want to evolve we should work together and cooperate. In order to do that, we must respect everybody even if they're different.

**Respect is the path to unity and prosperity**. If we respect our fellow human beings and have equal rights with them, we can get close to them and bring about peace. I think that we should not "**judge a book by its cover**". If we look on the inside of a person we can take a step forward.

To sum up, "Unity in diversity" is a term that defines the perfect world and can lead to eternal peace and happiness. If we cooperate with each other and respect each other, then our world will become a place where everyone can live happily. **We all must stand for complete inclusivity, equality and love.**

Christos B. B3

## UNITY IN DIVERSITY

An element that characterizes people in the world is **diversity**. No human being is the same as another. There are **differences** in the body, colour, religion , in opinions, ideas, and more .No matter how different they are from each other ,there are **elements that unite** people such as goals in life, human rights and the pursuit of happiness.

Therefore, in modern societies in which people live together, while being quite different from one another it is very important to accept the “different”. For this reason we should be understanding and always be open minded, not prejudiced or create stereotypes. We should always try to cooperate and struggle so that societies have a human character and are democratic. After all every person regardless of their characteristics can be an active and responsible citizen. Of course, this requires respect and **acceptance**.

At the same time, it is necessary to reject any negative attitude towards the “different”. If all the people accept diversity, human relationships will benefit and the quality of social life will improve .Then people will have no reasons to fight with each other, nor will they dislike each other and there will be no exploitation. Instead, they will all work together to solve the problems that arise.

Finally, this way, there will be **no social problems** and there will be **development, culture and prosperity**.

In conclusion we should never judge the people around us for a better society.

**Katerina Ch. B4**
